Dear Mr. Mahta

I understand that Government are likely to open an Agricultura High School in Belgaum District if some local help is forthcoming.

There is a High School at Ainapur, taluka Athani run by a local association. They are willing to convert it into an Agril--cural High School and allow Government to run it.

The Krishna Sugar Mills of Kittur have taken some lands in Ainapur on lease for 30 years for cultivations. They are prepared to give 200 acres out of this area free of rent to Government of Bombay for running an Agricultural High School for 30 years. The Krishna Sugar Mills is also prepared to supply pumped water from Krishna River at the School site free of charge for irrigating up to 25% of the School Farm and for drinking in the School colony. Mr. G.M. Deshpande, a well known social worker of Ainapur offers to collect and donate to Government about Rs. 15,000/- towards the cost of school buildings.

All crops can be grown in Ainapur with irrigation - Sugarcane, tobacco, cotton, paddy, jowar, wheat and vegetables. The Krishna Sugar Mills is starting a Fruit farm close by next year as also a 1000 herd Dairy. The Krishna Sugar Mill has a tractor, all mecha--nical cultivation implements and oil-engine and pump. The High School students can freely use these machines, the Dairy farm and fruit farm for their education. The climate is dry and healthy. The village of Ainapur is accessible by an all weather road from Shedbal Rly. Station.

The Krishna Sugar Mills, and the organisers of the Dairy Farm (to be started) offer to pay Rs. 2,000/- each per year towards the recurring expenditure of the School.

I, therefore, strongly recommend that Government should accept this offer. If they do, the Officer of the Agricultural Department or Educational Department- whoever is in charge of Government Agricultural High Schools - should come to Ainapur, contact Mr. G.M. Deshpande of the Ainapur High School and Sardar Panse of Kittur Sugar Mills, settle all details in agreement with them and put up a detailed proposal before Government for sanction.

Yours sincerely

V. Iswaran

D.N. Mahta, Esq.,
Additional Secretary,
Reconstruction Department, Bombay.

423-A

Reconstruction Department.
Secretariat.
Bombay, 18th April 1947.

My dear Isvaran,

Many thanks for your demi-official letter dated the 15th April 1947 regarding the desirability of converting the High School at Ainapur, taluka Athni, run by a local association, into an agricultural school. The offer made by Krishna Sugar Mills of Kittur is an excellent one and I agree with you that Government should accept it. The various points mentioned in your letter are being examined and I shall write again in this connection in the course of a few days.

Yours sincerely,

(D.N.Mehta)

R.A.Kulkarni, M.L.A., (Belgaum)

Athni.

To,

Shri:

M. P. Patil,
Minister for Agriculture & Forests
Secretariat,

Bombay.

Sir,

1423 1930/4
11220 A

The Head-Master of the Ainapur High School has submitted an application to me. From his application it is learnt that the Govt. of Bombay is going to open an Agricultural High School in the Rural Area in Belgaum District.

The said Ainapur High School is run by the Karnatak Rural Education Society Ainapur. The village has got a population about 6000. It is situated on the banks of the Krishna River. It has got fertile black soil land near the river. Moreover, the climate is very congeni to the crops and as well as to the men. The High School is run by a private agency consisting of self sacrificing Graduates. Its present strength is between 200-300. The management is willing to transfer the School to Govt. if Govt. wishes to convert the very High School into an Agricultural High School. The teachers are willing to serve in the High School. Additional staff if required Govt. may supply.

The Krishna Sugar Mills of Kittur has taken some lands at Ainapur on lease for 30 years for cultiva--tion. The said Company is ready to give 200 acres out of its area free of rent to Govt. for running an Agricultural High School for 30 years. The Krishna Sugar Mills Limited is also prepared to supply pumped water from Krishna River at the School site free of charge for irrigating upto 35% of the School Farm and for drinking in the School

orders to collect and donate to Govt. about Rs 15000/- towards the cost of School Building.

All sorts of crops can be grown in the soil of Ainapur with irrigation, namely, sugar-cane, tobacco, cotton, paddy, jowar, wheat, vegetables and fruit-trees. The Krishna Sugar Mills wants to start a fruit-farm close by next year and also a Dairy. The Krishna Sugar Mills has got a tractor of its own and all sorts of implements of cultivation and oil engine and pumps. The High School students will be allowed free use of these machines the Dairy-farm and fruit--farm for their education. The climate is dry and healthy. The village is accessible by all wheather road from Sheabal Ry.Station. Moreover, the Krishna Sugar Mills and the Organizers of the Dairy Farm offer to pay each year some amount towards the recurring expenditure of the School.

I read in paper that Govt. intends to open an Agricultural High School at Nipani. But, the facilities available to Ainapur are wanting there. Moreover, the water of the River Krishna will be available in case there is a scarcity. That is not the case at Nipani. Moreover, it is a trading centre of tobacco. But, Ainapur being in the midst of the rural population is the fittest place to open an Agri--cultural High School. It will benefit the whole of the District. By the by Arbhavi Farm is near Ainapur. So, the combination of a High School with the Agricultural Class at Arbhavi will give impetus to the agricultural problem to be solved in the near future. We will get the hearty co-operation of the agricultural class and as well as the co-operation of the best social workers in that part. I personally recommend that place for opening up an Agricultural High School.Moreover, the Managers of the Krishna Sugar Mills have promised to help the institutim as their own.

Under the circumstances, I strongly recommend to the Govt.that the venue of the Agricultural High School should ~~x~~ be changed to Ainapur from Nipani. The question of prestige should

not come in in the matters of public interest. I hope, you will give, your kind consideration to this urgent matter.

Yours sincerely,

R A Kulkarni

College of Agriculture,
Poona, 24th September, 1947.

-25-

The Secretary to Government,
Agriculture and Rural Development Department,
Secretariat, Bombay.

Reference Government in the Reconstruction Department endorsement No.1423/10112-A, dated the 21st April, 1947, to the Principal, College of Agriculture, Poona.

I enclose a copy of the report on his visit to Ainapur, in Belgaum District, of Mr. H.C.Patil, Superintendent, Agricultural School, Manjri, District Poona, and it will be observed that, in the circumstances explained in the report, I do not consider that the proposal for the conversion of the High School at Ainapur into an Agricultural High School, is suitable. At any rate, in such circumstances, the directorate of research and education will find it extremely difficult to organise the High School into an agricultural institution on the lines of the Agricultural Schools under the control of this Directorate, without the expenditure of a large sum of money, which does not seem to be justified.

Director of Agriculture
(Research & Education),
Bombay Province.

No. 7/1741 of 1947.
Agricultural School,
Manjri, Dist. Poona.

Dated August 12, 1947.

To

The Deputy Director of Agriculture
(Education) Bombay Province, College of
Agriculture, Poona 5.

As desired by you I visited Ainapur in the Belgaum Taluka on the 2nd instant, in the morning and collected the necessary information regarding the conversion of the local High School into an Agricultural High School.

A detailed report thereon is as under:-

The School was started some 20 years back through the efforts of the Karnatak Rural Education Society.

The School is run in a rental building. It has not its own buildings or lands. The present strength of the students in the higher classes where in Agricultural Training will be given is as stated below:-

Standard	Number of students	Boys	Girls	Total
V	36	34	2	36
VI	29	26	3	29
VII	21	20	1	21
		80	6	86

If the High School is to be concerted into Agricultural High School, there will be necessary of the following facilities for the Agricultural Training.

1. Farm measuring about 30 acres of land with a well or wells capable of irrigating about 10 acres of land.
2. Farm implements and other deadstock.
3. Livestock- Bullocks, Milch cattle and Poultry.
4. Farm Buildings such as Residential Buildings for farm servants, cattle sheds, for milch cattle and Poultry houses and andruns and a farm store.

In addition to these there will be necessary of appointing trained staff in agriculture - 2 Agricultural Graduates, 2 Agricultural Assistants and 2 Agricultural Kamgars.

Sardar Panse- Managing Director of the Krishna Sugar Mills and Dairy Farm, Kittur, who on behalf of these institutions has promised certain facilities for the proposed Agricultural High School was seen at the Kittur Sugar Mills and in discussion regarding the affairs it was learnt from him that certain facilities would be given to the school on certain conditions, such as:-

1. Farm for the School - The Dairy Farm is acquiring 1,000 acres of land. Out of this area some 170 acres of land would be given in exchange of equal area of Government land on the bank of the River Krishna. This Government land is more than 2 miles away from the Ainapur Village, and it is being used by the villagers as grazing ground and so are likely to raise objection to part with it.

2. Irrigation Irrigation water will be supplied at Rs.3/- per turn per acre.

3. The students would be allowed to use the Agricultural and Dairy Machinery.

But I do not think that these facilities would be very muc useful towards the regular day to day training of the students, because the farm as proposed to be given in exchange of the Government lands appears to be difficult to obtain as the Government lands concerned are used by the villagers as grazing ground. And even if it is obtained, the land offered in exchange is inconvenient being nearly mile away from the present school building. There is no other suitable lands available for school farm near about There is absolute necessity of a Farm under the direct control of the School authorities for efficient training in Agriculture. And again there is necessity of all the equipment for farm management as the students are to be given the training in Farm management and asked to grow certain crops and record day to day observations thereon. The farm will have to maintain its own sets of implements and appliances and livestock also. The large scale machinized equipment as proposed to be loaned by Sugar Mill and the Dairy Farm would not be very useful for the students of the School.

The Society running the present High School has not any substantial resources with them to run Agricultural High School.

Taking all existing circumstances into consideration it appears it is not very useful proposal to convert the present High School into an Agricultural High School, unless the Government takes on itself to do every think acquiring of lands for farm, construction of buildings and equipment purchase which would involve large amounts, both for capital and recurrent expenditure.

A.R.D

Submitted with O.n. dated.

10.2.48.

2. Receipt of the E.D. orders may be awaited till 15/12/48.

30/10/48

Supdt. 3

A.R.D

Submitted w/r to Para 2. of
P.S.I
O.N. dated the 10th Feb. 1949.

2. The E. and S.D. may request
U.O. to state whether the orders converting
the High School into Agrl. High School at
Amapur has since been issued and, if so
to supply a copy of the same. to this deptt

Info
11/4/49

Let this go to the S.D. as
4.5. are not interested in the conversion of
the H.S into Agrl High School.

log Rec'd to E.D. Deptt
8th Jan 1949

37 Edcn. & Ind. Dept.

Submitted with ref. to the D.P.I.'s D.O. No. 33 dt. 23/10/48.

2 For the reasons stated in the A.S. A.R.D.I. is not of telling that the Edn. Dept. has transferred the pps. to this Dept. for taking further action. These pps. may however be kept in await with our Main file No. 7744/8384.E on which the D.P.I's remarks in connection with the conversion of the High School at Ainapur into an Agrl. High school are still awaited.

The D.P.I. should again be expedited by an express letter.

U.O.N. to A.R.D.D. 31/1/49

AGRICULTURAL & RURAL DEVELOPMENT DEPARTMENT
Ref. No. 1123
Date 31 JAN 1949
File No. B x x x 12

submitted

to the J.A.S note, dated 8.1.48

Jan 1948

2 It is presumed that the J.A.S is intention was not to transfer the papers to E+D. Deptt but to ascertain from that Deptt for information how the matter regarding the conversion of the High School at Ainapur into an Agl. School stood. The E+D. Deptt has necessary papers on the subject and it is not necessary to transfer these papers to that Deptt. As the question of converting the High School in question into an agl school has been considered in file these papers, it is advisable that this file should remain with this Deptt. As observed by the J.A.S this Deptt is not interested in the conversion of the High School into an Agl. High School. The papers may be filed after no.
